Mark,

Please accept this letter in appreciation for your assistance and guidance in Community Action of Southern Kentucky submitting responses to the City of Bowling Green's request for proposal for a Transit Management Contractor and Transit Operating Contactor.

This particular request for proposal was more detailed and contained new requirements compared to previous requests as the City prepared to restructure transit. Your knowledge and experience allowed our organization to make a confident response. We conclude that your involvement was a major contribution in us securing the Transit Operating Contract.

We extend many thanks to you, Lynn, and Stanton for your assistance in making our proposal a first place contender. We look forward to continuing our relationship as future opportunities may present themselves.

Sincerely,

Carroll Duckworth
Transportation Director
