January 2, 2024

Mark,

I am writing you this letter to express what an outstanding job you and your team completed for our first ever driver “road” eo. Your experience in setting up such a challenging and fun course was evident from day one. We have drivers that have over 50 years of both motorcoach and tractor trailer driving experience, and even they could not complete some of the obstacles you were able to create. I have had so many drivers come up to me since the event that want “one more crack” at the course. You highlighted some areas that we really need to focus on with our onboarding and driver hiring processes. We will certainly incorporate some of your obstacles into our training program.

You made this challenge such a great team building event, from drivers, to safety and compliance personnel, to ownership. Everyone had such a great time. I am hoping to make this an annual event for our organization!
